🔄 Venkatramaih

## PROFESSIONAL SUMMARY

---

Enthusiastic Full Stack Developer with 6 months of hands-on experience building responsive web applications using Angular, Spring Boot, and MySQL. Skilled in developing REST APIs, implementing JWT-based authentication, and creating user-friendly interfaces. Passionate about clean code, efficient backend systems, and delivering end-to-end web solutions.

## TECHNICAL SKILLS

---

**UI:** Html 5, CSS3

**Frontend:** Typescript, Angular, Bootstrap

**Backend:** Spring Boot, Java, Rest API's

**Database:** MySQL, Spring Data JPA

**Tools:** Git, Git Hub, VS Code, Postman

## PROFESSIONAL EXPERIENCE

---

**MY3 IT SERVICES Pvt.Ltd.**

02/2025 – Present

*Full Stack Developer*

Hyderabad

- Developed and maintained backend APIs using **Spring Boot** and **Java**, ensuring efficient and secure data processing.
- Integrated **MySQL** database operations with entity relationships reflecting real-world project structures.
- Implemented **role-based authentication and authorization** using JWT and Spring Security.
- Collaborated with frontend developers to integrate APIs with the **Angular** UI.
- Participated in sprint planning, daily stand-ups, and code reviews in an Agile environment.

## PROJECTS

---

### Timesheet Management System

**Description:** Developed a comprehensive Timesheet Management Application to streamline time tracking and approval processes for various user groups. The application features dynamic, role-based forms, real-time project and activity filtering, and workflow automation, enhancing operational efficiency and user experience across diverse organizational functions.

#### Responsibilities:

- Designed and implemented responsive forms using Angular and Bootstrap, supporting dynamic field configurations for multiple user types.
- Developed RESTful APIs with Spring Boot and MySQL to manage projects, timesheets, and related data, ensuring efficient data retrieval and submission.

- Implemented date range filtering and dynamic project/activity loading, improving data accessibility and usability.
- Enhanced user interface with features like collapsible sidebars, alert messages for validation errors, and a horizontal form layout using flexbox utilities.
- Debugged and resolved issues, including subproject loading errors and routing mismatches, ensuring robust application performance.
- Configured access controls and authentication guards to secure endpoints and enforce restricted settings for form and menu configurations.

## EDUCATION

---

<b>B.Tech Computer Science &amp; Engineering</b> <i>Vasireddy Venkatadri International Technological University</i>	2020 – 2024
--	-------------

<b>Intermediate MPC</b> <i>sri chaitanya junior college</i>	2018 – 2020
--	-------------

<b>SSC</b> <i>Z.P.High school</i>	2018
--------------------------------------	------

## DECLARATION

---

I now declare that the details above are correct and true to the best of my knowledge
